

## City of Montgomery WebGIS Instructions

- Open an Internet browser window
- Type <http://jcmaps.com/municipal.html> into the URL
- Click the words “MOBILE DEVICE” below the City of Montgomery logo as shown below:

(See Page 2 for further instructions)

- Click the “Layers” tab at the bottom of the screen to open the various layers of the GIS system.
- Use the “+” to reveal additional layers within each category.
- Use the check box to turn various layers on and off.
- The sliding bar can be used to change the opacity of each layer.
- The “Identify” feature can be used to obtain more details about a specific location. Details that are revealed will change as different layers are turned on and off.
